

**ArrayList Exercises**

1. What are the contents of *myList* at the end of this code segment?

```
ArrayList<String> myList = new ArrayList<String>();  
myList.add("Bashful");  
myList.add("Awful");  
myList.add("Jumpy");  
myList.add("Happy");  
myList.add(2, "Doc");  
myList.add("Dopey");
```

2. What is the value of `myList.size()` after the following additional statements?

```
myList.add("Pokey");  
myList.add("Campy");
```

3. What are the contents of *myList* after these additional statements?

```
int i = myList.indexOf("Happy");  
myList.set(i, "Bouncy");
```

4. What are the contents of *myList* after these additional statements?

```
myList.remove(myList.size() - 2);  
String temp = myList.get(1);  
myList.set(1, temp.toUpperCase());
```
